Rise and shine

with clear and crackle-free DAB radio

Bring out the best in your iPod/iPhone/iPad music—with rich and clear sound, or listen to crackle-free DAB radio. This elegant aluminium desktop dock also works as an alarm clock, waking you with your favourite song or radio station.

Enrich your sound experience

- Play and charge your iPod/iPhone/iPad simultaneously
- DAB and FM compatible for a complete radio experience
- Neodymium speaker driver for rich and clear sound
- 10 W RMS total output power

Easy to use

- Dock any iPod/iPhone, even in its case
- Auto clock synchronisation with iPod/iPhone/iPad when docked
- MP3 Link for portable music playback

Start the day your way

- Wake up to your iPod/iPhone/iPad music or radio tunes
- Weekday/weekend alarm setting to complement your lifestyle
- Gentle wake for a pleasant waking experience

Design that blends into your interior

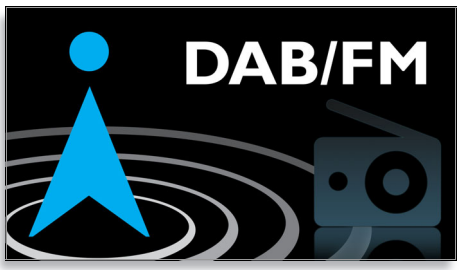
- Aluminium cabinet for quality look and feel

PHILIPS

sense and simplicity

Highlights

DAB and FM compatible



DAB (Digital Audio Broadcasting) digital radio is a new way of broadcasting radio, in addition to FM analogue transmission, via a network of terrestrial transmitters. It provides listeners with more choices and information delivered in clear, crackle-free sound quality. The technology allows the receiver to lock on to the strongest signal it can find. With DAB digital stations there are no frequencies to remember, and sets are tuned by station name, so there is no retuning on the move.

Dock iPod/iPhone in its case

Smartly designed spring-loaded docking port effortlessly accommodates any iPod or iPhone, without special adapters. What's more, it works even when most protective cases are on – just dock your iPod or iPhone as it is. Now you can truly have fuss-free enjoyment of your music.

Gentle wake

Start your day the right way by waking up gently to a gradually increasing alarm volume. Normal alarm sounds with a pre-set volume are either too low to wake you up or are so uncomfortably loud that you are rudely jolted awake. Choose to wake up to your favourite music, radio station or buzzer alarm. Gentle wake's alarm volume gradually increases from subtly low to reasonably high in order to gently rouse you.

Auto clock synchronisation

When connected and docked, this docking system will automatically synchronise the clock with your iPod/iPhone/iPad within a few seconds. With this convenient feature, you do not need to set the time manually.

Play and charge iPod/iPhone/iPad

Enjoy your favourite MP3 music while charging your iPod/iPhone/iPad! The dock lets you connect your portable device directly to the Philips system so you can listen to your favourite music in superb sound. It also charges your iPod/iPhone/iPad while it plays so you can enjoy your music and not have to worry about your portable player battery running out. The system automatically charges your portable device while it is docked.

Weekday/weekend alarm

Designed with modern day lifestyles in mind, this clock radio has a dual alarm feature, allowing you to set different alarm times for weekdays and weekends or even vary the alarm settings for couples. The alarm settings can be tailored for the same alarm times for the entire week from Monday to Sunday. Or you can set the alarm for an early start on weekdays from Monday to Friday, and lazy lie-ins for Saturday and Sundays. Whichever you choose, this convenient feature saves you from the hassle of fiddling with different alarm times every single night.
